

### OC Dive Boat SCUBA Charters - 2012 Group Rates

Group rates are available for dive groups of six or more divers. In order to secure a date for a group trip and receive the group rate, the group must issue a 25% deposit of the total group cost. The date will not be held without the deposit. The balance of the total group cost is due seven days before the scheduled trip.

Groups are responsible for paying for the entire committed group reservations whether or not they sell or fill the spots they reserved. Groups are also responsible for screening the divers they bring for proper experience, training, equipment and prerequisites required for the dive sites the group representative selected. All divers will be screened at the dock by the boat Captain and divers who arrive unqualified or without proper certifications will not be permitted to dive.

Spearfishing is allowed on all charters as long as the diver can demonstrate safe and responsible speargun and spearfishing standards. We require all divers to carry a safety sausage, a cutting tool and a wreck wheel/line. A **pony bottle and a powerful dive light are highly suggested.**

**Please bring only one large fish cooler and one drink cooler to share amongst your group.**

We do not provide equipment including tanks on our charters unless reserved and confirmed in advanced. You must bring all your own dive gear in good working order when you come to dive.

**Technical dive profiles are permitted upon request on group trips only.**
